Preamble, Constitution and By-Laws.

As amended and adopted August 7, 1875, by the incorporated Maine State Jersey Cattle Association.

PREAMBLE.

Seeing the great benefit the introduction of Jersey Stock has been to the dairy interest of the State, and knowing from experience and observation the superiority of Pure Bloods over all others, either for the dairy or for breeding purposes, therefore, we, the undersigned, do hereby form ourselves into an association for the purpose of fostering the breeding of Pure Blood Jersey Stock, with the following Constitution and By-Laws.

ARTICLE I.

This Association shall be known as The Maine State Pure Blood Jersey Stock Association.

ARTICLE II.

Any person may join this Association by paying to the Treasurer two dollars and signing the Constitution.

ARTICLE III.

The officers shall consist of President, two Vice-Presidents, Secretary, who shall also be Treasurer and Chairman of Pedigree Committee, three Directors, and a Committee of three on Pedigrees of Stock; to be elected annually by ballot. Other officers, for special purposes, may be chosen at such time and manner as the Association may vote.

ARTICLE IV.

It shall be the duty of the President, and in his absence, of a Vice-President, to preside at all meetings of the Association; also, to call meetings as hereinafter provided.

ARTICLE V.

It shall be the duty of the Secretary to conduct the correspondence of the Association; keep a fair and faithful record of the transactions of the Association; also, a true record of all animals, with name, age, color, and pedigree, so far as presented by the Committee on Pedigrees for that purpose. He shall cheerfully show this record to any member who may request it for the purpose of ascertaining the merits of stock; and for the sum of twenty-five cents, if a member, and fifty cents, if not a member,

issue his certificate taken from the records of the Association, with his name and office attached, certifying to the purity of blood of animals recorded therein. He shall take charge of all books that may come into the possession of the Association, using them as the Association may vote.

ARTICLE VI.

The Treasurer shall collect, receive and hold all funds, and pay them out on the written order of the Directors. He shall make a faithful record of all moneys of the Association, from whatever source accrued. Keep a regular account of all his receipts in I disburse nents and report at each annual meeting, and to the Directors, as often as they may require it.

ARTICLE VII.

The Directors shall settle with the Secretary, and other officers, at least once a year, allowing reasonable compensation for services rendered, drawing on the Treasurer by written order, to pay such bills as they may deem just and proper; audit all accounts, superintend and conduct the affairs of the Association, and report at each annual meeting their proceedings.

In case of vacancy by death or any other cause, of any office, they shall take charge of any books, papers, or other property that may be so left, and deliver the same to such member as they may appoint to fill such vacancy, until the annual meeting, and it shall be their duty to fill such vacancy.

ARTICLE VIII.

The Committee on Pedigrees of Stock shall examine the claims of all Jersey stock presented, and if after careful examination of history and pedigree, they are satisfied such animals, or the stock from which they were bred, were imported from the so-called "Jersey Island," and have not since their importation been mixed with any other blood, then they may be placed on the Recording Book of the Association, and the committee shall pass the name, with color, age and such other description, with owner's name, as they may deem proper, to the Secretary for such purpose.

ARTICLE IX.

Any person owning stock which they wish registered, can present them to the committee on Pedigrees, by first paying to the Treasurer one dollar (\$1.00), if not a member, or fifty cents, if a member, for each animal presented, and a written receipt for this amount shall entitle any animal to the consideration of the committee. But if any one shall knowingly or wilfully make any false statements, or use any fraudulent means with said committee, to have stock registered, and it shall so appear at the time, or subsequently, to said committee, and, if after a fair and impartial investigation, they shall believe that a false statement, or statements, or fraudulent means have been so used, they shall cause the registry of such

animal or animals, if made, to be expunged from the records, and the person or persons so offending, if a member, shall be expelled from the Association.

ARTICLE X.

Meetings may be called at any time, by the President, by causing written or printed notice to be sent each member of the Association, so far as their residence is known to the Secretary, at least seven days preceding such meeting; said notice specifying, as far as may be, the business to come before such meeting, with time and place of meeting. And it shall be the duty of the President, or, in his absence, neglect or refusal, the Vice-President; and in his absence, neglect or refusal, any other officer of the Association, on petition of any five members, to call a meeting, by giving notice in the same manner as required to call a meeting by the President.

ARTICLE XI.

The Association shall meet annually, at some place in Winthrop, in the month of October, for the choice of officers, to hear reports, and to transact any other business that may properly be presented, notice thereof being previously given as provided in Article X.

ARTICLE XII.

Assessments may be made when the Association, by a two-thirds vote, shall so decide, notice thereof having been previously given, as for calling meetings in Article X., provided in no one year shall assessments exceed one dollar on the poll. and fifty cents on each animal he may have recorded, and owns at the time the vote was taken. Assessments for any less sum to be made in this proportion. If any member, after suitable notice, shall refuse or neglect to pay his proportion of such assessment, he may, two-thirds of members present so voting, be expelled from the Association.

It shall be the duty of the Directors to make all assessments.

ARTICLE XIII.

If any member of this Association knowingly and wilfully makes any false statements in relation to Jersey stock, belonging to the Association, or in any way breaks his faith with the Association or its members as such, he may be expelled by a majority vote of members present at any regular meeting.

ARTICLE XIV.

This Constitution may be altered or amended by a vote of two-thirds of members present, at any meeting, provided notice of such alteration or amendment be given at least one week previous, or at some meeting of the Association. All other questions, excepting as provided in Article XI., shall be decided by a majority vote, provided, in all cases, it shall require at least five members to form a quorum for the transaction of business, but a less number may adjourn.
